

# WAUSAU

WINDOW AND WALL  
SYSTEMS

## Views of New England and the Hudson Valley

On leafy college campuses, busy downtown streets, health care complexes and harborside mixed-use towers, Wausau Window and Wall Systems® has met the needs of government, educational, health care, and commercial buildings for more than 60 years.

Wausau's historically accurate renovation windows and broad new construction product line can provide Euro-class thermal performance for cold New England winters, and offer durable operable sash for natural ventilation, as well as sun shades and light shelves for energy efficiency.
